

SMM26 Title Style sample

First Author^a, Second Author^b, Third Author^a

^aAuthor(s) affiliation, Department, Street, City, 12345-6, State, Country

^bAuthor(s) affiliation, Department, Street, City, 12345-6, State, Country

These instructions give you guidelines for preparing the one-page short paper for the 26th Soft Magnetic Materials Conference, which will be held on September 4-7 2023 in Prague, Czech Republic. Please present the motivations of the contribution, the methodology used. Acknowledgements and selected references have to be placed at the end. Please contain all the text in one page. These instructions should be read carefully. If they are not adhered to, it could result in sub-optimal reproduction quality.

Keywords: first keyword, second keyword, third keyword

1. Submission

Authors are invited to submit 1-page digest, in line with the themes of the conference, in the format described in this Template. All digest must be submitted in PDF format directly on the conference website via the online submission system. Digests sent via email or regular mail will not be processed or acknowledged. After a peer-review process, the authors of the accepted short papers will be invited to present their research work at SMM26, by oral or poster presentations, and to submit 4-page full papers for possible publication in a special issue of a Journal (envisaged in the Journal of Magnetism and Magnetic Materials). More details about the format are posted on the conference web site. Authors will be informed about the status of their submission via e-mail before May 30 2023. For any further information, please contact the workshop organizers at ripka@fel.cvut.cz

2. Styles

All text throughout the paper should be written in Times New Roman single-spaced, and respect the following font sizes: 24pt should be used for title, 11pt for author's name, 11pt for author's affiliations, 10pt for keywords, 11pt for main text, 9pt for figure and table captions, 10pt for references. If you use nonstandard fonts for special symbols, please embed them in the PDF (export option).

2.1. Citations

Number citations consecutively in square brackets [1]. The sentence punctuation follows the brackets [2]. Multiple references [2, 3] are listed together in single brackets. When citing a section in a book, please give the relevant chapter name and page numbers [2]. In sentences, refer simply to the reference number, as in [3]. Do not use "Ref. [3]" or "reference [3]" except at the beginning of a sentence. Papers that have not been published should be cited as "unpublished". Papers that have been submitted for publication

should be cited as "submitted for publication". Papers that have been accepted for publication but not yet specified for an issue should be cited as "to be published".

$$u(x, y, z) = v(x, y, z) + w(x, y, z) \quad (1)$$

Place figures and tables in the middle of column. Figure captions should be left justified below the figures. Table

Figure 1

Figure 1: Figure caption

captions should be centred above the tables. Please use words rather than symbols to label the axes.

Table 1: Table caption

Column A	Column B
1.0	2.0
2.0	2.1
3.0	2.2
